- Val introduced today's **guest speaker** Teresa Cain. Teresa is the owner of Interior Solutions Design Group. Teresa is a graduate of the International Academy of Merchandising and Design in Toronto and has worked in her field for fourteen years. Teresa opened her business in 1996 and describes herself as passionate about her work. The object of Interior design is to create an environment that is pleasing to live in and expresses the personality of the client. Teresa is careful to make the elements of style and aesthetics clear to those she works with and to help them explore and enjoy the process of design. In working to set the mood of a home Teresa helps the client to coordinate taste, lifestyle and budget. Teresa works from the exterior to the interior as she develops the use of space, color, texture and mood. The process has a dynamic flow to it that abides by no rules; Teresa is constantly innovating and encouraging the client to experiment. The results not only create a space that the homeowner is at home with but also enhances the sales appeal of the residence. Teresa's business offers workshops and classes for those with an interest in the process; her company's staff includes experts in kitchen, bathroom, and built-in designs. Nancy thanked Teresa for speaking to us this morning.
- **50/ 50/ happy/ sad**: Estelle had the right ticket but couldn't find the Ace of Clubs.

**Meeting adjourned.**
